<b>Reflections:</b>	I feel that I used a variety of assessment methods to fit the students learning. I always tried to keep a positive learning environment and making changes to my way of teaching if to help improve the students learning.
<b>Overall Rating:</b>	Proficient
<b>Reflections:</b>	I made sure to teach the content the student needed to learn by using different instructional strategies that fit the student the best. I also adapted information so that students were more interested in it or helped to better help their understanding of the information.
<b>Overall Rating:</b>	Proficient
<b>Reflections:</b>	I always displayed strong communication skills when talking to professional around me. I always planned out what I was going to teach and the way I was going to be teaching it. I was able to meet and develop mean relationships with school colleagues and students while in my practicum. I always presented myself professionally to everyone I was around during my practicum.
